WE INNOVATE FOR YOUR FUTURE

# New generation of fresh air technology: Mia Air

We spend 90% of our lives indoors and yet indoor air quality is 10 times more polluted than outdoors. This can lead to health problems and lowers our quality of life. Specifically designed to clean air pollutants, **Mia Air** offers superior indoor air quality that will improve the quality of life.

# Continuity in fresh air

**MIA Air** continuously measures the air quality without affecting the ambient temperature. This improves the quality of life by continuously cleaning the indoor air at a frequency varying according to the size of the room and the amount of pollutants.

It is one of the highest capacity devices with the ability to clean a room of 100 m<sup>2</sup> (1075 sqft) on average 2\* times per hour.

*\*The average ceiling height is considered as 3 meters (9.843 ft).*

# DELTRIAN

WE INNOVATE FOR YOUR FUTURE

## Sometimes what you can't see, can do the biggest harm to you

With more than 30 years of air filtration experience, **Mia Air** offers you the latest filtration technology. **Mia Air** has been designed to provide fresh clean air by trapping 99.99 % of ultra-fine particles in the air. By using HEPA filtration, which traps extremely small particles, **Mia Air** can transform polluted air into clean air in seconds.

### PARTICLES CAN AFFECT YOUR ORGANS

By capturing chemical pollutants (VOCs) in the air with the world's leading activated carbon filter, **Mia Air** traps chemical pollutants and greatly reduces the risk of developing health problems caused by air pollution. The 'best in class' **Mia Air** HEPA and activated carbon filters not only supply highly efficient filtration but also long-lasting service life.

**DELTRIAN**  
WE INNOVATE FOR YOUR FUTURE

# Designed with environmental sensitivity in mind

With a minimum carbon footprint, **Mia Air** is energy efficient and environmentally friendly. Thanks to its anti-allergenic structure, it delivers fresh air at a maximum level.

**Mia Air** is CE certified, is designed for safety of all age groups and has a fireproof ABS body structure.

**DELTRIAN**  
WE INNOVATE FOR YOUR FUTURE

# "Your Air" is under control with Mia Air mobile app

**Mia Air's** practical panel design, allows you to control the environment of both you and your loved ones in a simple way both manually and with the mobile app.

**Mia Air Mobile App** is an all-in-one screen design, providing instant information on ambient air quality and filter life, and provides access to all parameters related to the device. When it is time change the filter, the mobile application allows online ordering with an automated reminder.

## Improve the air quality

- Effective Against Allergens
- Environmentally Friendly
- User Friendly
- CE Certified
- Auto, Silent and Turbo Mode
- Mia Air Quality Detection System (PM1, PM 2.5, CO2, VOC, Humidity and Temperature Sensors)
- Traps 99.99 % of Pollutants in the Air (HEPA Filtration Technology)
- Ozone Free
- Mobile App

### EFFECTIVE AGAINST

AIR DUST

POLLEN

ALLERGENS

PET DANDER

CHEMICAL VAPORS  
(Volatile Organic Compounds)

ODOR OF  
SMOKERS

MICROORGANISMS

**Deactivation ratio of micro-organisms within the 1st hour of contact 99.98%\*  
with ANTIMIC® coated HEPA filters.**

*\*AATCC Test Method 100-2004, % reduction of Legionella Pneumophila, Sabanci Üniversitesi, 2012*

Deltrian International is the exclusive reseller in Benelux and France for Mia Air products. Should you have any question, feel free to contact us, we will be glad to help !
